COLLEGE HONORS.

The Honors are a part of the College System, in which the Bachelor of Arts is considered the full graduate of the Institution.

The Degree of Master of Arts is given for attainments higher and more extended than are included in the College System.

I. COMMENCEMENT ORATION.

1. *The Valedictory Oration* is awarded to that graduate who shall be judged to have attained the highest degree of general scholarship.

2. *The Salutatory Oration* is awarded to that graduate whose scholarship is second in grade.

II. PRIZE MEDALS.

The College Faculty have instituted prizes for excellence in elocution and in composition, consisting of gold medals. For these prizes the members of the Sophomore and Freshman Classes compete, and the award is made by disinterested judges. To the most dutiful private soldier is also given a gold medal.

III. GRADATIONS.

In every Class and School, and in every list of Proficients or Distinctions, the names are announced in the order of relative standing.

IV. CIVIL ENGINEER (C. E.)—The requirements for this Degree are Certificates of *Proficiency* in Mathematics; Applied Mathematics; Civil and Military Engineering, Chemistry; Mineralogy and Geology; Natural Philosophy, including Analytical Mechanics; French or German; English; and Plans and Reports upon assigned subjects.

GENERAL INFORMATION.

ADMISSION.

1. Applicants for admission must furnish evidence of good moral character, and produce certificates of honorable dismissal from the institutions of which they were last members.
2. A student may enter at any time and be assigned to proper classes.
3. All candidates for admission are assigned to such classes in the schools of their choice as they are prepared to enter.
4. Students are required to report to the President within twenty-four hours after their arrival in town.

COURSE OF STUDY.

Special attention is paid to English Composition and Declamation, and all students are required to take the School of English. They may select such other studies as their parents or guardians may desire. Every one is required to have at least fifteen recitations a week.

The time required to complete the course of study for any degree will depend upon the previous preparation and upon the diligence of the student.

Professors give assistance on studies that may be behind. One or two years of time and much money are thus often saved to the student.

Preparatory courses of instruction are arranged for the accommodation of those who are not prepared for College classes.

PLAN OF INSTRUCTION.

In every department the instruction is practical.

In all sciences the students are required to use apparatus and instruments.

Original problems are solved; and much attention is paid to original essays.

Lectures are occasionally given by the Professors when thought serviceable to students; but the rule is, that students themselves perform in the class room, the object being to make them proficient in demonstration and explanation.

Professors and teachers are occupied as many hours as are necessary to examine thoroughly each day all the members of every class, and thus allow no neglect of any study.

The classes are divided into small sections, so that each student may receive special attention. The members of sections are arranged according to merit in each branch, and the students are kept constantly stimulated to obtain and preserve good positions.

The progress of each class and the relative merit of the members are recorded. At the end of each week the results are reported to the President, and afterwards posted on the bulletin board for encouragement or warning.

There are weekly reviews in every study, and no student is allowed to pass any portion of the text without understanding the subject.

GOVERNMENT.

The government is administered by the President and Professors in accordance with the regulations adopted by the Board of Trustees. A copy of the laws is kept in each student's room.

These laws inculcate manly virtue, preserve order, require sobriety and morality, protect and encourage good students, and do not allow the persistently idle and immoral to remain where they can injure others.

The personal influence of the President and Faculty is exercised to encourage the young men in the discharge of their duties, and the co-operation of parents is solicited.

REPORTS TO PARENTS AND GUARDIANS.

Daily reports of conduct and weekly reports of studies are made to the President. From these, semi-quarterly reports are made to parents and guardians. The reports to parents show the absolute and relative standings in each class, the number of absences from classes, and other facts that may be thought of interest.

RELIGIOUS CULTURE.

Prayers are held every morning in the Chapel, and the Faculty and students attend.

Students are required to attend the churches of their choice every Sabbath morning; and they do, of their own accord, generally attend Sabbath-school in the morning and church at night.

MORAL TRAINING.

By attaching more than usual attention to moral and social culture, this College has received a large patronage. No feature of the Institution is more highly appreciated by parents and by the public. And justly so; for what is the worth of intellectual power if the habits and sentiments are corrupt? A sharpened sword in the hands of an evil man threatens danger to all society. How much harm is being done in the present age by corrupt intellectual giants! How many young men return from college with bright minds but with dissolute habits! To prevent such harm it is the policy of this College to give to the morals of its students more than usual attention. As a means of protection against evil influences it is a regulation (191) of the College that whenever it shall have become apparent from any cause that it is to the interest of any student or of the College that he shall withdraw from the Institution, his resignation may be demanded by the President.

The virtue of all students is watched and improved as if under a parent's eye; and it is the glory of this Institution that it can be said that during this administration not one boy has returned home worse than he came: but hundreds have been raised to a higher standard of morals and to more virtuous habits.

SOCIETIES.

There are, in connection with the College and in successful operation, two Literary Societies—the Philomathic and the Franklin. These Societies, provided with well selected libraries, are regarded as valuable aids to the student in the formation of a literary taste, and in affording opportunities for exercise in debate, and in obtaining a knowledge of parliamentary rules.

All students in the College classes are required to join and attend one of the Societies, or to recite on Saturdays to one of the Professors.

Secret Societies are not allowed.

At the Annual Meeting of the Board of Trustees of Howard College for 1881, the following preamble and order were passed:—

WHEREAS, The influence of Secret College Societies has proved in the general experience of educational institutions unfavorable to discipline and scholarship and therefore to the welfare of Colleges and to the best interests of students, it is hereby ordered by the Board of Trustees of Howard College.

LOCATION.

The location of Howard College is all that could be desired. Marion is situated on the Cincinnati, Selma, and Mobile Railroad. Howard College is thus quite accessible by rail from all quarters of the State, and from the adjoining States. In addition to Howard College, there are located here two large and prosperous Female Seminaries. The town also contains five churches—the Baptist, Methodist, Presbyterian, Episcopal, and Christian. With these surroundings, and with a population of four or five thousand inhabitants, it is evident that Marion affords the wholesome restraint of a moral and intelligent community, without presenting those extraordinary temptations to young men incident to great centres of trade.

BUILDINGS.

The main College edifice contains a large Chapel, Library, Apparatus Rooms, Laboratory, Halls, and Offices.

The Dormitory Buildings, comprising the North Hall and the South Hall, contain fifty-four Dormitories, eighteen feet square, and four Recitation Rooms.

The Dining Hall is a commodious and handsome Italian structure.

In addition to these buildings which are on the Campus, the College owns the large dwelling across the street in which the President lives.

LIBRARIES.

Each of the two literary societies has a good library; and the College has one.

Contributions to these libraries are solicited.

During the past session the College library has received four hundred valuable volumes from the U. S. Government.

CABINETS.

The Geological and Mineralogical Cabinets contain a large variety of specimens. A handsome series of Maps and Charts and Engravings illustrate Lectures on Geology.

APPARATUS.

The Institution is in possession of an good Chemical, Mathematical, and Philosophical Apparatus.

THE SCHOLASTIC YEAR

Is divided into two terms. The first begins October 1st, and ends January 31st. The second begins February 1st, and ends June 15th.

EXPENSES, PAYABLE OCT. 1st AND FEB. 1st.—STRICTLY IN ADVANCE.

FOR EACH TERM.

Tuition and Board	\$ 85 00
Furnished room, fuel, and servant's hire	22 00
Washing	4 50
Total	<u>\$111 50</u>

Expenses per term in the College Department for sons of Ministers	\$ 96 50
Expenses per term in Preparatory Department for full-pay students	96 50

All students who are not well prepared in English Grammar, Arithmetic, and Geography, are classed in Preparatory.

To cover any damages, \$5.00 additional must be deposited; but only so much will be retained as may be necessary to cover specific and general damages.

When a student leaves College, all fees, *except tuition and medical*, are refunded.

ACCOMMODATIONS.

The dormitory rooms are large, and are comfortable in winter and in summer. They are furnished with beds, bedding, tables, washstands, mirrors, and other articles of convenience and comfort. Perfect order is preserved; and everything conspires to secure comfort and facilitate study.

The Boarding Department receives special attention of the College authorities; and the dining hall is presided over by a Superintendent and three Assistants.

PERSONAL ATTENTION OF THE PROFESSORS.

The Professors devote all their time to the students, giving instruction in the class rooms during the day, and visiting the dormi-

tories night and day. Parents committing their sons fully to the care of the College officers, may be assured that physical comforts, moral influences, and intellectual training will be provided.

To avoid distracting influences, to command full attention, and to facilitate study, young men are required to board and lodge in the College, unless their relatives live in town, or unless the Board of Trustees, for special reasons, allow otherwise.

THEOLOGICAL STUDENTS.

Theological students who come with licenses from their churches do not pay any tuition fee.

SONS OF MINISTERS

Have the privilege of the College at reduced rates.

CADET CORPS.

For the purpose of physical education—erect, graceful, and manly carriage of body, a vigorous and healthy constitution; for cultivating politeness, moral courage, respect for self, deference to others, frankness, perseverance, industry, and self-reliance; and for giving to the mind the power of close and continued attention—military discipline and training are exceedingly important; and all students are expected to join the Cadet Corps, which is drilled not more than one hour a day and at such time as not to interfere with studies. At last annual meeting of the Board of Trustees the following resolutions were passed:—

1. That all secular students shall be required to join the Cadet Corps, excepting such as may be excused by the President for special reasons.

2. That while it shall be optional with theologues as to their joining the Corps, yet the Board of Trustees recommended and request that they shall do so.

In the appointment of officers scholarship and class-membership are the prevailing considerations, other things being equal. But for special military excellence, rank may be held in abeyance.

UNIFORM.

Students should bring from home a good supply of under-clothing, but only one suit of outer wear. The uniform will be furnished soon after arrival, under contract made by the college with one of the best houses in the United States. Experience of many years has proven conclusively that the uniform should be controlled by the college—to lessen cost by procuring at wholesale rates; to get superior cloth and work, and to avoid complaints by parents whose sons would otherwise be imposed upon. Therefore students are not allowed to purchase of any house excepting that with which the college contracts; the uniform pattern is prescribed by the presi-

dent, and no student is allowed to be agent for any house that supplies uniforms unless it be by permission. If a student is not a member of the cadet corps he cannot wear the uniform, nor any part thereof.

The uniform suit consists of coatee, pants, fatigue cap and dress cap. The cost of these is \$23.60, of good and durable cloth. The usual cloth can be had for less than this, but we think no lower grade should be bought. For \$27.40 a uniform made of the best cloth that is to be found in the United States can be had. Students get the uniform at a wholesale cost price from superior cloth.

MEDICAL ATTENTION.

In order that students whose parents live at a distance may have medical attention whenever needful, all students from abroad are required on matriculation to pay a *fee of five dollars*. This fee secures medical attention for the *entire* scholastic year.

VACATION.

There is no vacation during the session. Classes push rapidly ahead every day; and a student cannot leave at any time without loss. One day is given at Christmas; but *no student is allowed to go home at this time*. If parents insist upon seeing their sons at home during the session, notwithstanding the loss, they are requested to arrange for a visit by correspondence with the president. Such time will be given as not to disorganize classes and damage other students, and such time as will work as little detriment as possible to the individual. But no furlough will be allowed within two weeks before nor one week after Christmas, and none to include Christmas.

COMMENCEMENT AND DEGREES.

1. The Annual Commencement is held on the SECOND WEDNESDAY IN JUNE.

2. No student is admitted to a Degree or permitted to take any part in the Commencement Exercises, unless he has creditably sustained all his examinations, performed such other exercises as may have been assigned him, and settled all college dues, including a graduating fee of five dollars.
